PROCLAMATION

The goal of *Circular Economy Month* is to transform the current take-make-waste linear economy to a circular one, where resources are conserved, reused, and reinvested in new products.

Whereas: The circular economy is a shift to practices that extend the life of goods, food, and resources;

Whereas: The desired economic model is built on responsible production and conscious consumption with a primary consideration being environmental protection;

Whereas: The City of Calgary is committed to reducing our waste, conserving resources, and educating our community about sustainable living.

On behalf of City Council and the citizens of Calgary, I hereby proclaim the month of October 2022 as:

CIRCULAR ECONOMY MONTH
